LANGUAGES

English

KEY ACHIEVEMENTS

- Mentored fellow students in IT, fostering growth in programming and digital skills
- Successfully led or contributed to multiple projects using modern UI/UX principles

SKILLS

FRONTEND DEV:

- React JS
- TailwindCSS
- HTML, CSS & Javascript

BACKEND DEV:

- Python
- Django

SOFT SKILLS:

- Team Player
- Bias for action
- Deliver Results

Projects

Malos Haven – Property Management System

A web-based platform that allows landlords and property managers to manage multiple properties, units, and tenants efficiently. It includes features for adding and updating properties, tracking unit occupancy, managing tenant information, handling maintenance requests, and viewing property analytics in a clear and organized dashboard.

Malos Flix – Movie Database Web App

A user-friendly movie database and streaming interface that allows users to search, discover, and view details about movies, series, and anime. The platform features dynamic search, categorized recommendations, and detailed movie pages with information such as plot, cast, ratings, and release date. Designed with a modern UI to enhance the browsing and viewing experience.

Experience

Inspire Works Design – IT Club Mentor

Muhanga, Rwanda

11/2022 – 07/2024

Supported fellow students in the IT Club by assisting with coding concepts, organizing learning sessions, and guiding them through hands-on tech projects. Helped foster a collaborative environment that encouraged problem-solving, creativity, and digital skills development.

Education

Bachelor of Information Technology – Software Engineering

Adventist University of Central Africa – onGOING

Kigali, Rwanda
